

The BCCC Christmas Page

**Tis that time of the year where the Yule is near
This is the time this old duffer has even more beer
May the coming year be for you crisis free
Been hearing over much of that of late you see**

**May your corral of bulls continue to grow
May their condition be ever sharp and neat
Now is the time for my Holiday bulls seen below
Hope not any from past years these do not repeat**

**Two USA Christmas cancels is the very first row
Followed by true figures of the present fest
Santa and snowman are season's images that all know
They have stood two or more centuries long test**

**Two more Santas appear first in the second selection
They were issued in "09" same design but diff size
These followed by 25th bulls of Japanese perfection
For recent frequency of Dec 25th they now take the prize**

Three more bear more of the holiday scene plus snowman already seen
 A tree stands in most all homes and next angel heralds the day
 Swede snowmen being built by a youth wearing green
 On Xmas our heart is with our children all of the way

The fourth of these rows brings this verse to its close
 2008 must have entered with a flash from youth's comic scene
 New Years bulls from "07" and "08" are the last chose
 The Germans have more 1st year day bulls sharp and clean

Our family's best holiday wishes go out to all of you all
 May writers come forward next year for whatever reason
 Hope more philatelists hear and follow our call
 Here father and son wish you all the best this Yule season
